DETAILED ACTION

The previous office action (an *Ex Parte Quayle* action), mailed on August 7, 2007. It is noted that the claims from application 11/504,091 were added to this application (10/761,098) upon instruction from the examiner. It was also noted that all claims from these two applications were thus in condition for allowance. However, due to the declaration in this application being defective as noted below, the allowability of these claims is rescinded at this time, as they are now currently rejected. Therefore, claims 1-8 and 16-25 are pending in this re-issue application, and are treated below on their merits.

Response to Amendment for Re-Issue Application

The amendment filed October 9, 2007 proposes amendments to the claims that do not comply with 37 CFR 1.173(b), which sets forth the manner of making amendments in reissue applications. A supplemental paper correctly amending the reissue application is required.

Applicant is notified that any subsequent amendment to the specification and/or claims must comply with 37 CFR 1.173(b). In addition, when any substantive amendment is filed in the reissue application, which amendment otherwise places the reissue application in condition for allowance, a supplemental oath/declaration will be required. See MPEP § 1414.01.

Applicant note: according to 37 CFR 1.173(d)(2): "The matter to be added by reissue must be underlined,..."

Declaration

The reissue oath/declaration filed with this application is defective because it fails to identify at least one error which is relied upon to support the reissue application. See 37 CFR 1.175(a)(1) and MPEP § 1414.

Claim Rejections

Claims 1-8 and 16-25 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the declaration is set forth in the discussion above in this Office action.

Applicant note: this rejection based on a defective declaration was made in the office action mailed on March 15, 2006. However, the declaration was not corrected in response to this rejection.
